Our trusted clients

Why choose GeoBizz for a fresh perspective?

GeoBizz is not just a tool; it's a promise of new insights and possibilities. Experience a dynamic & transformative platform that offers a refreshing take on overcoming enterprise challenges.

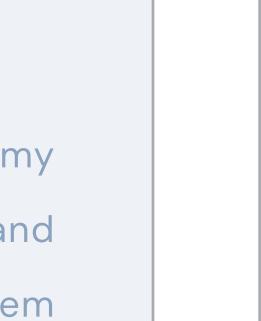

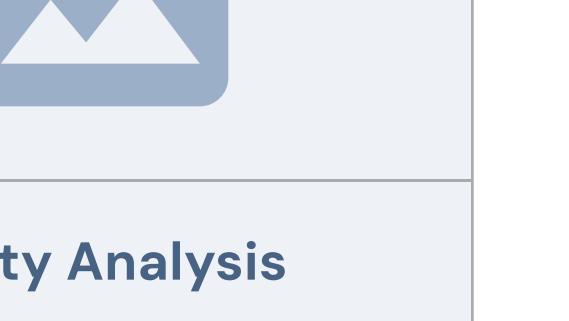

Multi-layered data Exploration

GeoBizz offers users the ability to explore a multitude of data layers. These layers can include diverse information such as demographics, businesses, points of interest, and more. This feature allows for a comprehensive understanding of the landscape, enabling users to analyze and visualize data from various perspectives to gain deeper insights.

[Explore](#)

Global boundary mapping

GeoBizz makes it easy to navigate the borders of various countries. Users can effortlessly explore and grasp the geographic boundaries of different regions, offering a global perspective for their insights. This functionality unlocks new opportunities to comprehend how diverse areas connect and impact one another on a broader scale.

[Explore](#)

Sophisticated analytical capabilities

GeoBizz introduces advanced features designed to revolutionize data analytics and decision-making. While the description doesn't specify these features, they could include functionalities such as predictive analytics, real-time data updates, machine learning capabilities, or other innovative tools that elevate the platform beyond basic mapping and data exploration.

[Explore](#)

Core product

A Geospatial MIS solution platform.

Maps & other layers

Can operate on any map engine & have own & customized map layers.

Location data

Use Google Maps + layer-based core data.

Solution

Total solution is provided to the client.

Cloud hosting

Cloud platform independent.

User acceptance

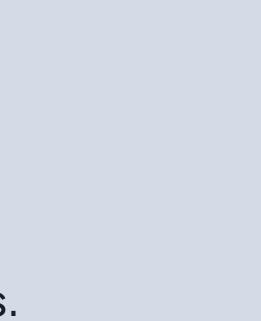

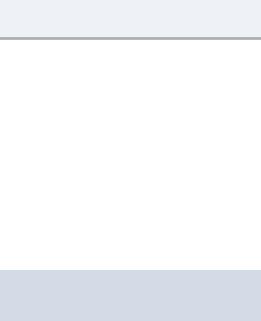

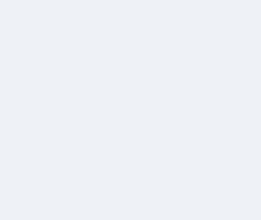

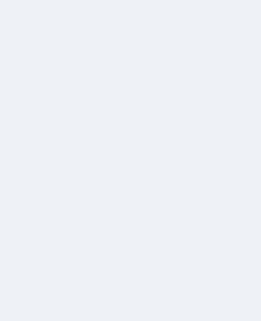

Highly user friendly & customizable due to MVC architecture.

Data representation

Frequent updates with global maps & street view.

Development standards

Follows ISO software development & OWAP 10, CIS 20 security standards.
